**ANDREW BRINE TO PARTICIPATE IN PANEL  
DISCUSSION ON “DAMAGES: PRACTICAL  
GUIDANCE AND MACRO-ECONOMIC ANALYSIS  
IN MEDICAL MALPRACTICE AWARDS” AT CBA  
2015 NATIONAL HEALTH LAW SUMMIT**

The Canadian Bar Association will be hosting the Fifth Biennial National Health Law Summit in Banff, Alberta on May 21-22, 2015. The summit offers legal practitioners, industry experts and other professionals serving healthcare organizations practical advice for complex problems and explores the critical issues in health law today.

**Andrew Brine** will join the “Damages: Practical Guidance and Macro-Economic Analysis in Medical Malpractice Awards” panel. This practical session will be all about the art and science of damage claims with a very human context. Andrew will join the other panelists to discuss the uniquely complex mixture of legal, medical and economic principals of damages in medical malpractice cases in our publicly-funded health care system. They will explore the “big picture” macro-economic analysis and the “nuts and bolts” of the issues. Various fact scenarios will give the panelists an opportunity to discuss all sides of the damages claims in each case.
