About Benchmark

Benchmark Canada® is a publication dedicated to covering litigation trends, firms and practitioners across Canada. Their various rankings and awards result from the culmination of a four-month research period where researchers conduct extensive interviews with litigators and their clients to identify the leading litigators and firms across the country. During these interviews, researchers examine recent casework handled by law firms and ask individual litigators to offer their professional opinions on peers. Firms cannot pay to be recommended by Benchmark. Learn more about Benchmark and their methodology [here](#).
